

Ziad Abdelhakam Sebahy Mohamed

Communication Engineer | Cloud Computing

Benha city, Egypt | Phone : 20223193 | Gr : 3 | PN : 47

Email : ziadheikal21@gmail.com | LinkedIn : eg.linkedin.com/in/ziad-heikal-150aa6311

Objective

Communications Engineering student (Expected 2026) with specialized training in Cloud Computing (2024) and Data Engineering (2025) from ITI. Built a cloud pipeline graduation project. Additionally familiar with cybersecurity fundamentals, PLC, and AI concepts. English C1. Seeking entry-level role in cloud, data engineering, or network optimization.

Experience

Cloud Computing & Data Engineering Trainee

Information Technology Institute (ITI) - Summer 2024 & 2025

Completed intensive training in Cloud Computing (2024): cloud architecture, virtualization, IaaS/PaaS/SaaS models

Completed intensive training in Data Engineering (2025): data pipelines, ETL processes, big data fundamentals

Built hands-on projects applying cloud infrastructure and data processing workflows

Technical Skills

Cloud & Data Engineering (ITI - 2024 & 2025)

Cloud Computing | Data Pipelines | ETL | Big Data Fundamentals

Telecommunications (University + Trust Academy)

2G/3G/4G/5G Fundamentals | Drive Test Techniques

Cybersecurity & AI

Network Security Basics | Machine Learning Concepts (self-study)

Linux | Python | Cloud Platforms Basic

Tools: MS Word | MS Excel | MS PowerPoint | Linux

EDUCATION

Bachelor of Communications Engineering
Higher Institute of Engineering and Technology
Expected Graduation: **2026**

Training

Information Technology Institute (ITI)

Cloud Computing Track - Summer 2024
Cloud architecture, virtualization, IaaS/PaaS/SaaS
Data Engineering Track - Summer 2025
Data pipelines, ETL, big data fundamentals
Digital Egypt Pioneers Initiative (DEPI) - DevOps Track
Linux fundamentals, cloud concepts
Cybersecurity Fundamentals (Online + University)
Network security basics, security concepts

Graduation Project

DevOps deployment on AWS

Designed and implemented a cloud-based data pipeline
Applied data engineering principles (ETL, storage, processing)
Used cloud services for workflow automation

Activities

Participant in Digital Egypt Pioneers Initiative (DEPI) - DevOps Track

Completed hands-on training in Linux fundamentals and cloud concepts.
